**Strategic
Plan**

Our **VISION**

All individuals in our community with a developmental disability will thrive educationally, vocationally, and socially.

Our **MISSION**

To ensure individuals with developmental disabilities have access to quality supports providing them opportunities to live, learn, work, and play in their community.

- Use an individual-first approach to everything we do.
- Deliver professional customer experience for all stakeholders and collaborative partners.
- Create long-term solutions while providing timely, knowledgeable, and quality support services.
- Engage and empower others in making life-long personal connections.
- Cultivate a caring and compassionate culture with a focus on our mission and vision.
- Inform and educate all stakeholders as an advocate for individuals.
- Be a responsible steward of taxpayer dollars.

From the Superintendent

Not surprisingly, our strategic plan over the last couple of years took a detour around, over, under and through the COVID-19 pandemic. Despite the roadblocks and the need to occasionally alternate our route, we made progress in several areas, including reducing the number of individuals waiting for services, implementing a method to ensure newly certified independent providers understand their roles & responsibilities, supporting provider agencies in their recruitment efforts, enhancing our technological capabilities, increasing collaborative efforts to support youth with developmental disabilities, and promoting the employment of people with developmental disabilities through targeted outreach & education.

Recent updates to our table of organization and several new and/or revised procedures have us feeling we are again in a place where we can focus on what we *want* to do rather than what we *must* do in order to adapt to circumstances beyond our control. With this in mind, we are pleased to present a 3-year strategic plan meant to keep us moving forward as an agency with creativity, flexibility, and a growth mindset.

At the heart of all we do is a commitment to excellent customer experience and the promotion of self-advocacy through the person-centered planning process. These tenets are woven throughout our plan which focus on our 5 main objective areas for the next 3 years: outreach & education, community integration, provider engagement, strengthening team knowledge of internal & external resources, and improving methods for supporting youth.

As a specialized team working to provide a lifetime of services and supports across a broad spectrum of individualized need, we know it is important to build our learning, listening and communication skills. Doing so is key to being effective and consistent in our relationships with each other as well as those with whom we come in contact. The COVID-19 has certainly taken its toll on staff as well as the people we serve, the people who support them, and all our community partners. We believe reflection, compassion and understanding are all essential to moving positively forward while showing grace to ourselves and those around us.

It is our sincere hope those values and beliefs are reflected in our thought and planning process comprising our 2022 – 2024 Strategic Plan.

Thank you for your interest in the Auglaize County Board of Developmental Disabilities.

Best wishes,

Renee Kohler
Superintendent

Strategic Plan | Objectives

Enhance stakeholder education & outreach about resources, services and supports.

Increase community integration, inclusion and employment of individuals served.

Create opportunities for enhanced positive provider engagement.

Strengthen team knowledge of internal and external resources and supports for staff as well as individuals and families served.

Improve methods of support for youth with complex developmental, emotional, & behavioral needs.

Objective #1: Enhance stakeholder education and outreach about resources, services & supports.

Objective 1 Goals	Strategies Planned	Progress Achieved
2022		
Phase II Website Redesign – Resources and Communications Tabs	Community Connections Coordinator leads April All Staff meeting to chart out relevant resource materials and design for the webpage.	Added “Monthly Summary of Board Activity” tab to the website featuring the At-A-Glance monthly summary of activity to the Board.
Welcome to EI packet	The Service Coordinators will work with the Community Connections Coordinator to develop a “Welcome to EI” packet. Ensure through departmental training the uniform use of the “Welcome to EI” packet by the Service Coordinators.	The “Welcome to EI” packet and training were completed in Spring 2022 for use by the EI department.
Transition from EI to Preschool Packet	Ensure through departmental training the uniform use of the “Transition from EI to Preschool” packet by the Service Coordinators.	EI Service Coordinators have been trained on the expectations related to the consistent use of the “Transition from EI to Preschool” packet.
Transition packet for 3-5, COEDI / OEDI and Adulthood	CTS team will work with the Community Connections Coordinator to develop a transition packet used to guide children and families through the transitions of childhood services & supports, on into adulthood services & supports. <h2>2023</h2>		
<p>Continuous monitoring of available IT services,</p>	<p>EI to explore increased use of Brittco to improve</p>	

exploring benefits and possibility of use to improve efficiencies.	efficiency. Pilot NK Telco Mobile Flight application for use with existing phone service to transfer calls to staff working remotely via their personal cell phones.	Successfully piloted and implemented use of NK Telco Mobile Flight application allowing for all staff to access work call on their cell phone when working remotely.
“Choice Management” is the new Time Management	Research ways to implement a Choice Management way of thinking, work with Sharon Emerick to develop staff in service/training on the topic.	The Impact Group is scheduled to provide in-service training for AuglaizeDD staff starting in February 2024 to address Choice Management way of thinking.
Setting Professional Boundaries		Implemented technology to assist staff in establishing appropriate ways to contact staff
Mental Health Resources for Individuals & Families		Matrix shared monthly with staff Expanded use of ECMH consultant to educate EI staff and families on resources
Implement a more concise training platform	In talks with Skill Path/Star 12 to implement a new training platform to take the place of BODD Works to offer a better training experience. This will allow managers to assign training and offer most of needed DD training all in one place.	The Auglaize DD skill path training platform was created and finalized. All staff will have skill path access in 2024
Adult, Children and Transition SSA networking group to share ideas and resources, county to county. (CTS SSA Roundtable, SSA Gathering)	Child and Transition Services SSA Roundtable to be offered statewide, with promotional support from OACB. Adult SSA Department to pilot a regional SSA Gathering. The Gathering will be scheduled on a quarterly basis.	Growth continues for the CTS SSA Roundtable, and it is well attended. It has been used as a way to reach Child and Transition SSAs across the state for purposes of spreading education on OhioRISE / Aetna, OACB Supporting Families committee updates, waiver waitlist assessments for children, and future education on OhioISP and the impact on children. SSA Gathering held in March, attendance exceeded expectations (21 attendees representing 5 counties.)
Expand knowledge of CTS SSAs to increase efficiencies and support families		Evaluated caseloads and set criteria for equitable distribution. Updated position descriptions Cross-trained both staff to be able to serve children of all ages, 3 - 22
2024		
Provide easy access to frequently used forms.	Add a Forms page to the website.	
Addressing the Generation Gaps	Tom Speaks from the Impact Group will provide a series of in-person training sessions starting in February 2024	
Increase efficiencies surrounding the MUI reporting & filing process.		
Implement use of Skill Path to meet agency and personal development goals		

Understanding & Respecting the Role of Our Coworkers	The Director of Business & Finance will work with the HR & Administrative Support Coordinator to establish a "Who to Ask" informational page for staff to easily identify who they should bring specific questions to.	
Research texting application for SSA's, Service Coordinators and some administrative staff to better service individuals and families.	Pilot Simple Texting application in January 2024
