Working Together to Support Your Students

As the new school year gets underway, please remember that your student's Service & Support Administrator (SSA) can be a valuable resource. Here are just a few ways our team can partner with you to help support your students throughout the school year.

Collaboration: A student's SSA can collaborate with educators and school staff to better understand the student's needs, goals, and supports. We are here to work alongside you; not just when there's a problem, but throughout the school year.

Connection: Need help finding a resource or support outside of school? The student's SSA can help connect children and their families with community services and organizations that may benefit them.

Communication: SSAs can help facilitate communication between families, schools, and other service providers. This creates a stronger team of support around the student.

Whether you're a teacher, intervention specialist, administrator, or other school professional, your student's SSA can be a valuable member of the student's support team. Reach out to the SSA and let's work together to help your students have a successful year!

BY THE NUMBERS

Children, ages 3 +, collaboratively supported by Auglaize DD and their local school districts.

Autism Resource Fair Upcoming

Join us for our upcoming Autism Resource Fair, in conjunction with Mercer DD at Tri Star Career Compact, on September 17th! This event is open to individuals with autism, families and caregivers, staff and educators, community members, and anyone interested in learning more about resources and supports available to individuals with autism.

With a wide variety of vendors, there will be something for everyone - from physicans and behavior health providers to therapists, technology and support resources, and more. Connect with local organizations, ask questions, discover new resources, and build your support network!

Visit the Auglaize DD Facebook page for event details.
